AI-XON

Artificial Intelligence & Innovation Studio

Extracting real value from Applied AI across highly regulated industries.

AI-XON

We rethink, rewire, and apply AI where it matters most.

We're here to do real work that drives real change, quickly. Our solutions are designed to embrace existing systems and processes, enabling the business to feel the value of AI; giving SMEs time back to rethink the service design from the ground up. Backed by decades of experience, we purposely break traditional consultancy, and deliver results through demonstration, we are an ambitious team that has delivered over £100m in bottom line realisation.

From Startup to Enterprise, we reimagine your value-add in an AI world.

AI-XON

Applied AI Development

UK based AI & Machine Learning development teams specialised in complex problem solving for regulated markets.

Speed up timelines, reduce delivery costs, and keep teams focused on results — not admin or backlog.

Startup Accelerator

We deploy funding and technical capability at various seed and investment stages to accelerate product and market launch.

We co-create and co-innovate roadmap with partners to open up new revenue paths.

We help investment rounds with our network of investors and affiliate partners.

Invention, IP Design & Development

For bold movers and investors who want to build a movement.

Legacy system modernisation

Unblock innovation and minimise long term spend by removing tech debt with AI-enhanced, lean, flexible, scalable systems.

Innovation & Solutions Consultancy

Are you struggling to extract the value from AI or Innovation? Our team of solutions consultants and AI experts help executive teams define a clear path to tangible value with the use of AI.

AI-XON

Why us?
We don't advise from the side lines –
We're in it with you.

20+ years of expertise

We have a proven track record modernising legacy systems in regulated industries, with broad experience from startups to enterprises, and are trusted partners in high-stakes digital transformation.

Hands-on, embedded experts

Your digital SWAT team, we work shoulder-to-shoulder with your team. No silos, less risk, better well rounded outcomes.

Commercial and technical fire power

We've built, scaled, and exited businesses, so we understand what it takes to deliver solutions that create real enterprise value, not just technical output.

Fast, outcome focused

No nonsense, just smart, strategic decision making to deliver what matters. We don't just advise, we build the right solution with you.

AI-XON

Our secret is finding your
Connected Intelligence.

The future isn't AI replacing humans in entirity. We demonstrate the value of Humans + AI › creating a Connected Intelligence operating and service delivery model that was never possible alone.

IP Creation

For bold movers who want to build something impactful.

We find new IP and increase multiples by deploying rapid innovation through a startup style approach; unbound by corporate structure.

We need executive sponsorship & a growth mindset team to start.

AI SOLUTIONS   **AI SERVICES**

Solving the £7bn Net Zero Challenge.

We were excited to work with **EcoBot.AI** to power and launch their AI capability in Domestic Retrofit.
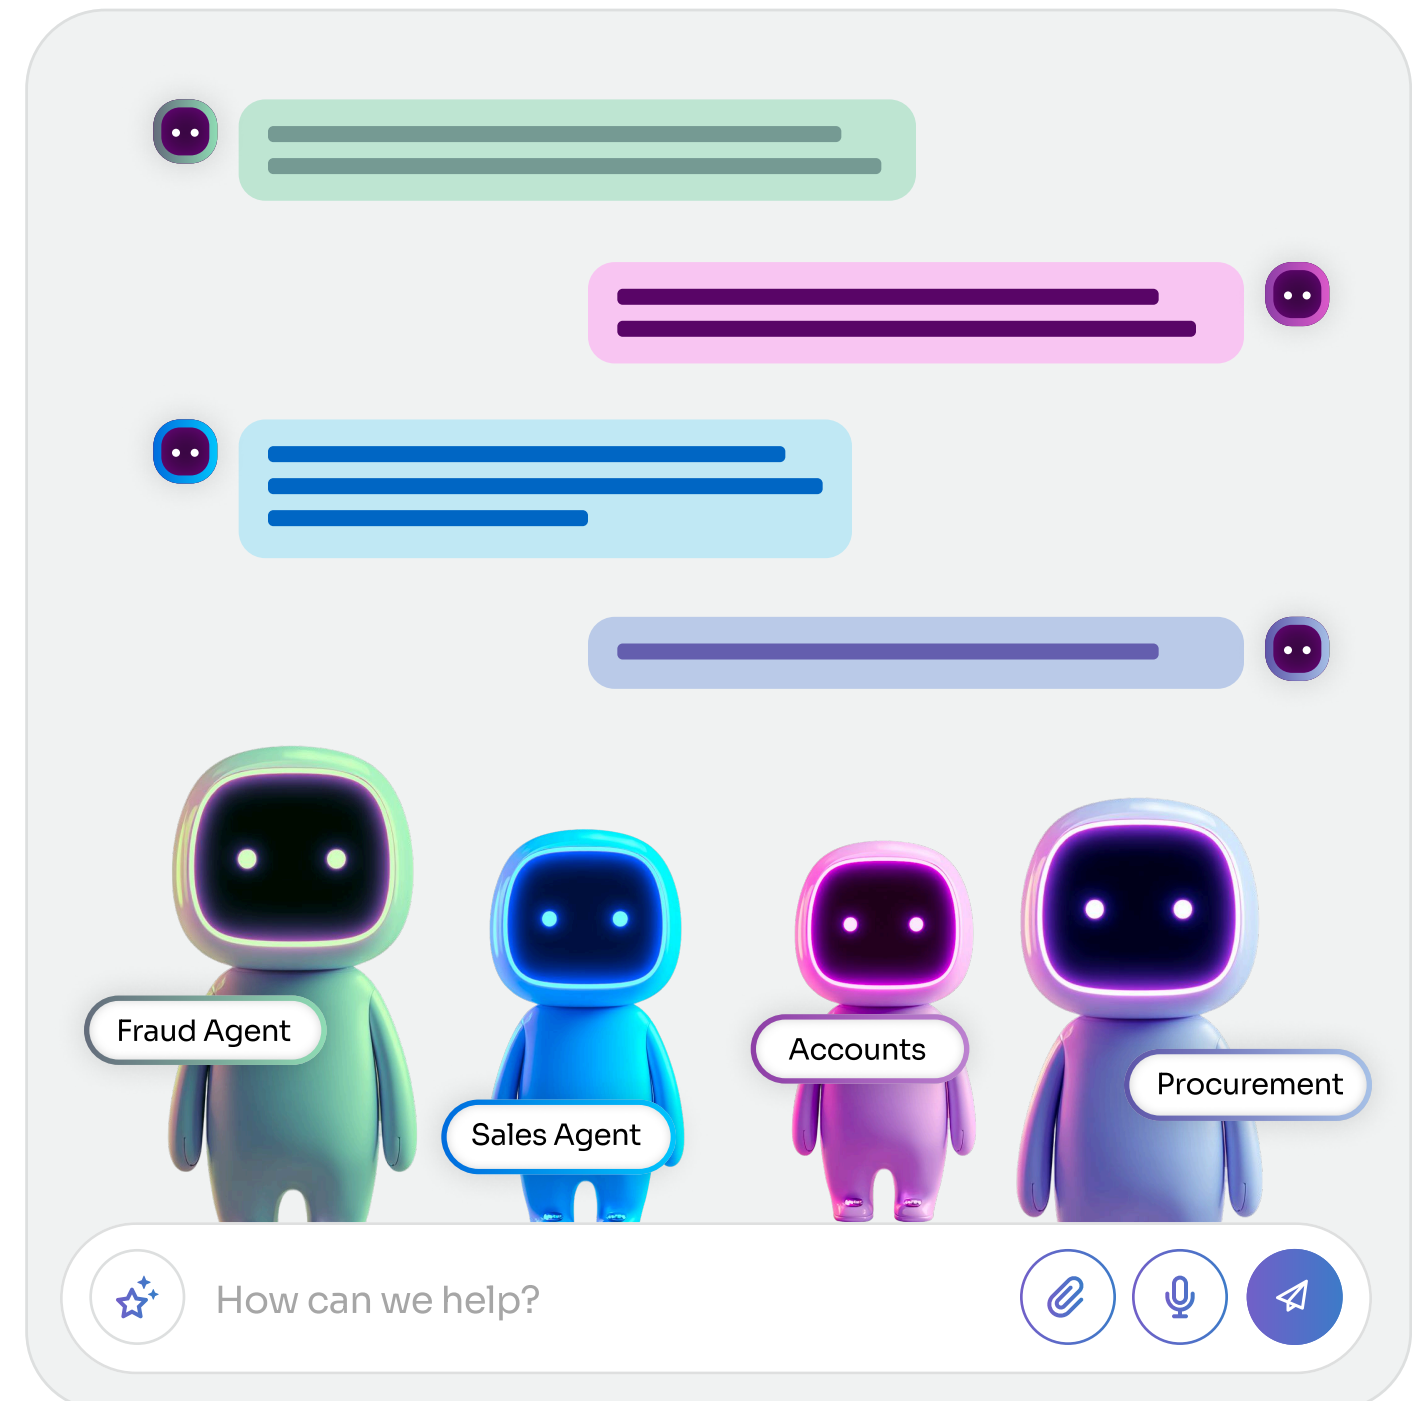

ECOBOT AI

We deploy AI skills into corporates

Agentic AI is an evolved capability that solves the restrictions of process automation such as RPA or process orchestration.

One advancement of AI is the strategy of deploying an AI Collective as a part of a Connected Intelligence model. In short, we narrowly train AI to perform a skill, and then form that skill as a part of a team.

That could be a researcher, a brand creator, a finance skill, a document processor, or whatever. We then recruit this skill into any team and culture in days, not weeks.

**ENTERPRISE AI DEVELOPMENT**

AI-XON

We've had a busy 12 months!

We see what others don't.
We build what others won't.

humanly

Humanly: AI Fraud Detection for Insurance and Financial Services

In the world of AI Generation, Fraudsters are thriving more than ever to manipulate and exploit traditional service lines, and AI has become the weapon of choice. No longer can humans distinguish from the Truth - from manipulated scenes, deep fake avatars, forged receipts/evidence/imagery - AI-XON built Humanly to detect the truth humans can't see.

Pharma:
Delivering New Transformative Data Insights with AI

We partnered with a Pharma Company to deliver transformative AI-driven data insights that revolutionise how pharmaceutical teams understand scientific impact, stakeholder engagement, and strategic planning—unlocking actionable intelligence at scale to drive smarter decisions and accelerated outcomes.
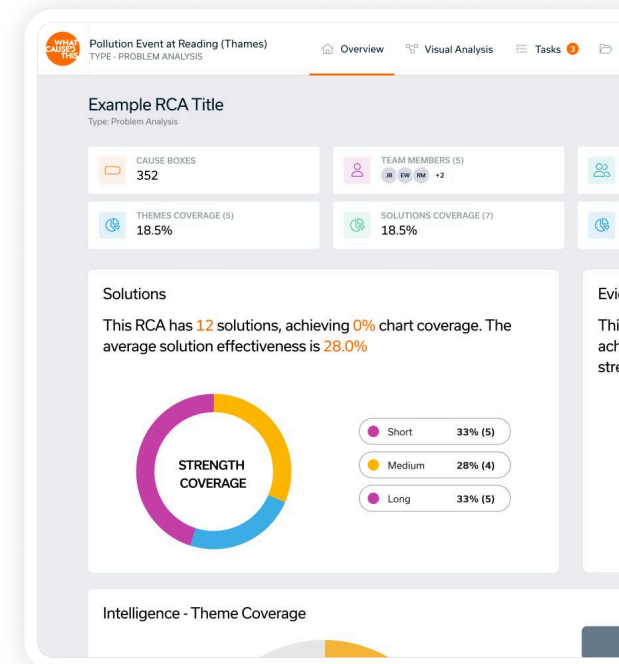

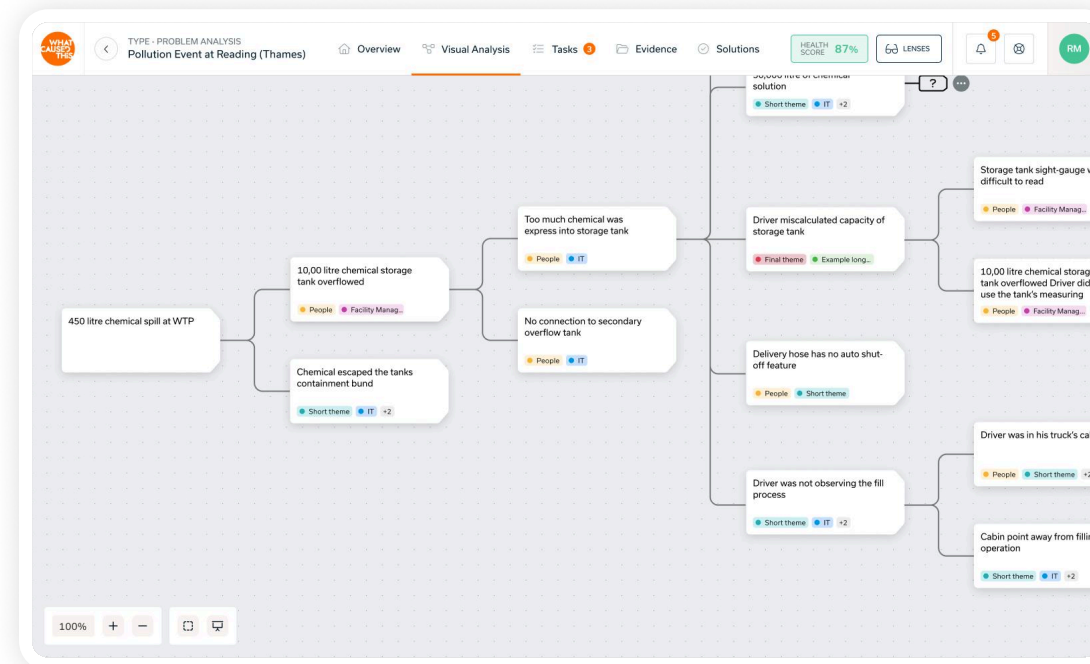

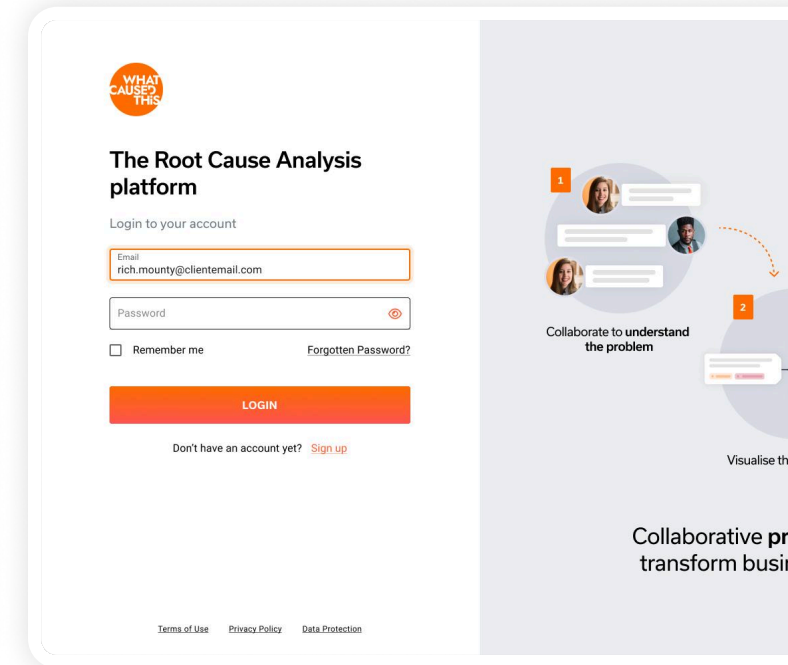

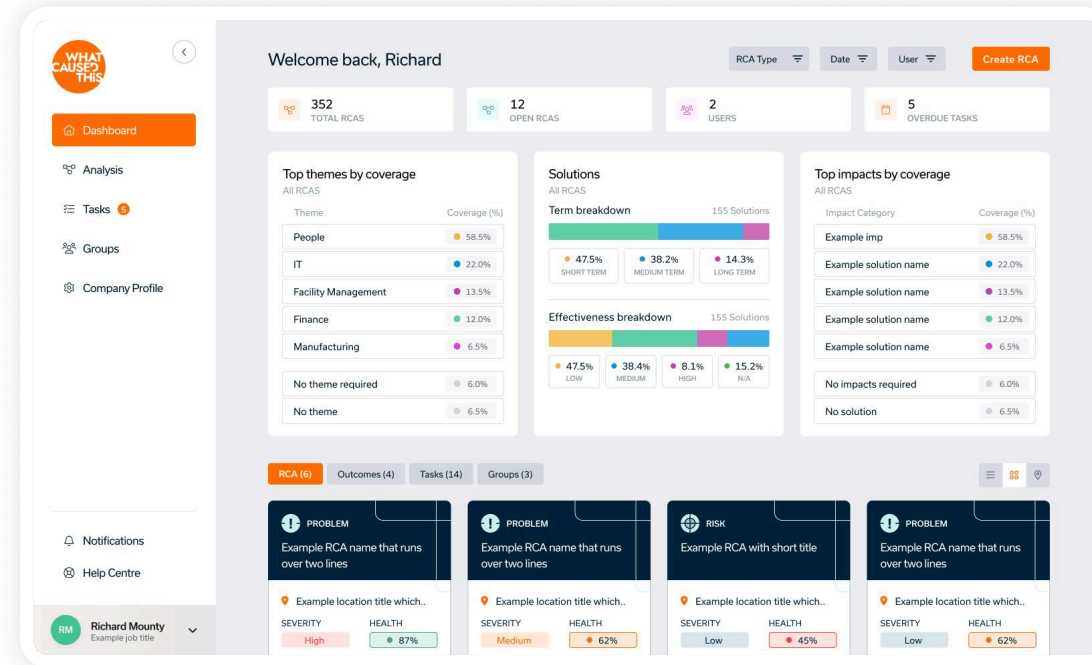

ENTERPRISE AI DEVELOPMENT

What Caused This –
Causal Intelligence and Root Cause Analysis platform

Co-Innovated with What Caused This to develop a revolutionary Causal Intelligence and Root Cause Intelligence Platform - helping organisations solve industries most complex problems.

Adopted by highly regulated industries. Our AI has saved organisations millions in fines and also saved lives.
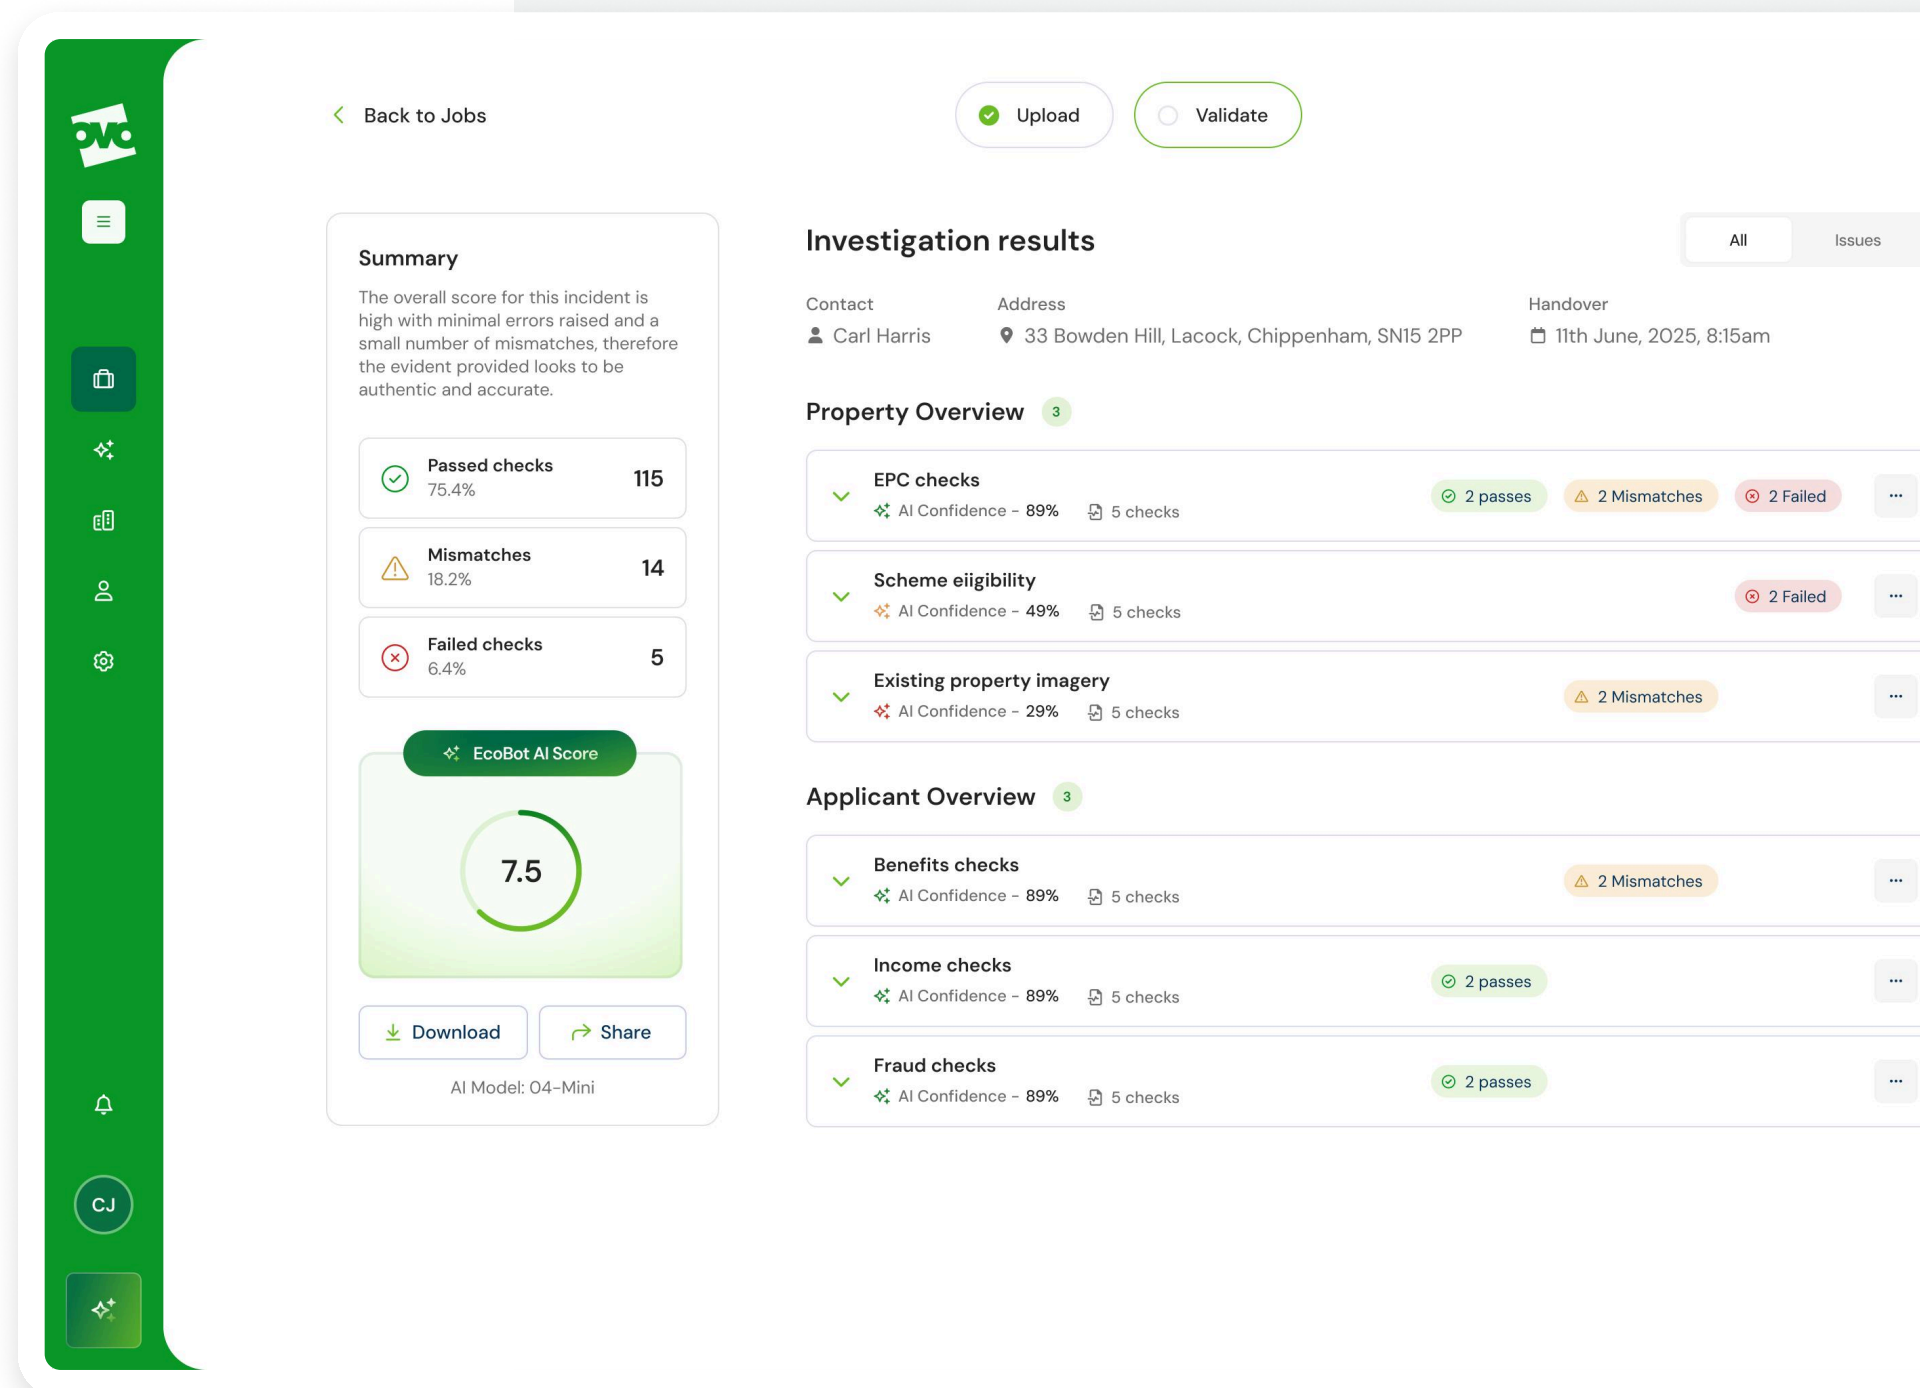

ENTERPRISE AI DEVELOPMENT

OVO & Octopus:
Solving the £7bn NetZero Challenge with AI

MyEcoBot automates insights across domestic retrofit and construction, targeting the £7 billion lost annually in administrative waste.

With reams and reams of compliance documentation submitted per job, it was taking staff around 4 days to analyse a job with 50% failure rate reported in Ofgem.

Our AI solution reads complex forms and runs over 3,500 compliance checks in a matter of minutes, saving thousands of hours across industry.

ENTERPRISE AI DEVELOPMENT

MyEcoBot:
AI Guardian Angel, preventing millions in errors in construction.

MyEcoBot automates insights across domestic retrofit and construction, targeting the £7 billion lost annually in administrative waste.

By streamlining compliance checks, material usage, and contractor communication, it unlocks efficiency and accelerates the journey to net-zero.
